

NEWSFLASH

TERM 3, WEEK 7 2023

This week, students are presenting speeches to an audience of their peers in the classroom. All speakers will be marked against a success criteria and the three highest achieving individuals from each class will compete in the public speaking final in the hall next Thursday 7th September 2023. I wish all students good luck with their presentations and look forward to attending the final next week. Students who who are successful in the school final will progress to the Zone Competition for Public Speaking in Week 9, at Denman PS.

Thank you to all who attended and supported our combined Father's Day and Fathering Project dinner and STEM evening on Tuesday. The turnout for this event was phenomenal and the atmosphere was terrific. Thanks so much to the dads and significant others for your enthusiasm and for taking time out of your day to participate with your child/children in the STEM Challenge. Congratulations on constructing a catapult that projected an object, whether it went high or long it didn't matter, the time spent with your child/children is what counts. A huge shout out to the P&C for catering for the event in recognition of our dads on Father's Day this Sunday. I believe the meat and gravy rolls were a hit.

Our next event in Term 4, is likely to be a Handball Round Robin so if there are any dads or a group of dads who can volunteer to assist with organising the competition, the Fathering Project Team would be most grateful.

Speaking of dads, I'd like to wish all the dads and significant males in our lives a wonderful Father's Day for Sunday. The P&C offered a variety of gifts at the stall this year, and the students made considered choices about what dad might need or like this Father's Day. Thanks to all our families who supported the P&C stall.

Regards,
Corallee Kerrigan

HAPPY
Father's Day

Fortnightly PBL
Focus:
Moving around the school
Responsibility

Be safe, Be proactive, Be a team player
